**RE: Junior Programmer | Full-Time, Permanent**

Dear Employer,

I am extremely excited to apply for your organization for the position of Junior Programmer at Torvan Medical Inc as a Full-Time, Permanent employee. I read the job descriptions in the posting, and I believe that my experience and knowledge fully align with what the job requires out of an employee, and I am looking forward to potentially being a part of your organization.

During my stay at George Brown College, I accumulated an impressive standing as a student by not missing deadlines and finishing all my projects within the deadline assigned. I have worked with multiple team members to finish projects efficiently and I am extremely good at working in a team environment. I am a great learner and can absorb knowledge from my peers and always look for ways to improve. I have excellent knowledge in JavaScript, React, Node.js and many other languages. I have maintained a 3.76 GPA in my program and have been in the Dean's list for all semesters. I am confident in my abilities and believe that my abilities will synergize well with all the job requirements.

Thank you for considering me for the job position and reviewing my resume. I am looking forward to working in your organization and would love to further expand on what I have to offer for your organization. I can be contacted at 647-803-2368 or [kunga.lhosel@georgebrown.ca](mailto:kunga.lhosel@georgebrown.ca)

Sincerely,

Kunga Lhosel
